

January 5, 2010

Competitive Edge Labs, LLC  
Phoenix, AZ

**PROJECT: "ALPHA ONE™ Analysis"**  
**RTP Labs ID: 10-001-1**

Presented below are the laboratory results of the analyses for the sample received on January 4, 2010. We received one sealed bottle of ALPHA ONE™, 60 capsules. Five capsules were randomly selected and individually weighed, combined and the amount equal to one capsule was extracted and analyzed by GC/MS for Methyl-1-Etiocholenolol-Epietiocholanolone, which is also 17 $\alpha$ -methyl-1-androstene-3,17-diol. An in-house reference standard was used for the GC/MS analysis.

*Certificate of Analysis*

<i>Product Name</i>	<i>Lot &amp; Expiration</i>	<i>Ingredient Tested</i>	<i>Assay</i>	<i>Label</i>
ALPHA ONE™	Lot 53788 DEC2012	Methyl-1-Etiocholenolol- Epietiocholanolone (17 $\alpha$ -methyl-1-androstene- 3,17-diol)	21.0 mg/cap	20 mg/cap

Sincerely,

Alston Sykes, Principal Chemist
